Summary

Versatile Front-end Developer with 6+ months of experience. Uncommercial experience of sites creating.

Objective

I am computer professional, thoroughly enjoying working with computers and technology. I always like to grow and extend my knowledge in cutting-age technologies. I found myself passionate about web development. That is why I am looking for a Junior Front-end Developer position. I offer excellent customer service skills and rich knowledge gathered in nine years of hands on experience in computer technical support services. As a young developer I will bring creative thinking and quick learning abilities as well as contribute company development and success.
